To Whom It May Concern:

I recently had the opportunity to work with PCD Building Corp., and particularly Paul Dougherty, on the men's and ladies' bathroom renovation at A. Duda & Sons, Inc.'s corporate headquarters in Oviedo. Paul and his staff were wonderful to work with. They especially made the materials selection process stress-free and fun, rather than overwhelming, by pre-selecting a reasonable array of floor and wall tiles, cabinetry, granite, and stall enclosures that were within our budget.

In addition, Paul went over and above the call of duty by personally taking me to shop at multiple stores for the decorative access tile and accessories to ensure that my selections were just right. Once installation had begun and I was second guessing my granite countertop selection, Paul drove me back to the granite vendor, tile and cabinetry samples in tow, and patiently waited while I selected a new granite that better complimented the tile.

On site, Paul's foreman was very thorough and efficient and made sure to allow inspections as each new material was installed. The contracted workers were also efficient and courteous and the workmanship was top rate. The job site was left clean and tidy at the end of each work day. And the project was completed ahead of schedule!

I highly recommend PCD Building Corp. and Paul Daugherty for your building and/or renovation contractor.

Sincerely,
