

LIBERTY

PROPERTY TRUST

February 27, 2009

To whom it may concern

Liberty Property Trust contracted with PCD Building Corp. for our Scientific Games project in Orlando, FL. PCD completed the project on time and on budget, which is to be expected. Where they differentiated themselves from other contractors was their ability to stay on top of this project's complex technical issues, which required them to solve several technical obstacles, while maintaining an aggressive construction schedule to meet the tenant's move in date. PCD really focused on the tenant's needs throughout construction, which ultimately led to the success of the project. In fact, Scientific Games has since contracted with PCD directly for some follow up work at the building.

We look forward to working with PCD Building Corp. again on many future projects. We would recommend PCD Building Corp. to any company looking for a quality general contractor.

Sincerely yours,

Jay Ohanesian
Project Manager
